Projects

Developer Portfolio	⦿ ctucker41/web-portfolio

REACT, NEXT.JS, NODE.JS, TYPESCRIPT, TAILWIND CSS

Designed and deployed a responsive personal portfolio site using modern front-end tools and frameworks. Showcases projects, resume, and contact information; deployed via Vercel. Optimized for different viewports to ensure accessibility across mobile, tablet, and desktop devices.

System Information Script (WIP)	⦿ ctucker41/SysInfoScript

POWERSHELL

Building a PowerShell script to display CPU, RAM, disk, GPU, and system information. Includes conditional warnings for high CPU temperatures and low disk space.

Experience
